Book Launch by Hon Anthony Albanese MP
Shadow Minister for Infrastructure, Transport, Cities and Regional Development

“Sustainable Pathways for our Cities and Regions: Planning within planetary boundaries”
Professor Barbara Norman

12.30pm -1.30pm, Wednesday, 14 February 2018
Committee Rm 1R1, Parliament House, Canberra (arrive @11:45am to proceed through security screening)

*Sustainable Pathways for our Cities and Regions* builds on the recent publications on cities and climate change, resilient cities and coasts, and sustainable cities, and looks at the ways in which current planning approaches need to be adapted to embrace concepts including green growth, planetary boundaries, healthy cities and longer-term sustainability.

Drawing on case studies from four cities selected for their publicly stated commitment to sustainability – Canberra, Kuala Lumpur, Copenhagen and New York – the author proposes seven sustainable pathways and draws conclusions on the positive contribution planning can make in preparing urban and regional communities for significant change in the twenty-first century city.
